

YOUTH IN ACTION
working at Abilities Resource Center, Vero Beach
Neighbors Helping Neighbors Succeed!

In spite of heavy rains on Saturday, December 10th, members of Youth in Action worked diligently at the Abilities Resource Center. Talk about determination to get the jobs done! One group worked at the ARC campus on 16th Avenue, Vero Beach putting down new mulch and doing general landscaping while the second group went to one of ARC's group homes and started the ground work on putting up 110 feet of new wooden fencing. The first group was able to complete their task, but the heavy rain took its toll on the fencing project and they will back in January to finish the project. This is truly what the season is supposed to be about – “Neighbors Helping Neighbors Succeed!”
